SUMMARY

Microsoft 365 Administrator with 6+ years managing cloud environments for US-based companies, including 3+ years supporting M365 customers and administrators through Accenture and Upwork. Currently own IT operations and automation for an executive search firm - Entra ID, Intune, Exchange Online, SharePoint, and Google Workspace, alongside workflow builds in n8n, Make, and Power Automate. Top Rated on Upwork with 100% Job Success.

EXPERIENCE

IT Administrator | Keller Executive Search — US (Remote) Feb 2024 - Present

- Own IT systems and business automation end to end across Microsoft 365, Google Workspace, recruitment platforms, and AI-assisted workflows.
- Administer Entra ID, MFA, Intune devices, Exchange Online mail flow, Teams, and SharePoint; handle onboarding, offboarding, access, and daily technical support.
- Configure DNS records (SPF, DKIM, DMARC) protecting email deliverability and sender reputation across company domains.
- Build automations in n8n, Make, Power Automate, Zapier, and GoHighLevel; designed and maintain the ClickUp workspace running daily recruitment operations.
- Run lead generation and outreach: enriched lists in Clay and Apollo, multi-step campaigns in Reply, with ongoing domain health monitoring

Microsoft 365 Service Engineer | Upwork (Part-time) February 2023 to October 2026

Supported M365 customers and administrators worldwide across the full suite. Exchange Online: mail flow, delivery failures, message trace, mailbox permissions, migrations, and email authentication. Identity and access: sign-in, MFA, lockouts, licensing, and conditional access. Intune device enrollment, compliance, and app deployment; Teams, SharePoint, and OneDrive permission and sync issues. Explained solutions clearly to technical and non-technical users; documented and escalated complex cases with complete detail
